Source excerpt: Shot on #sonyalpha using Angelbird Technologies cards

Finding: Wildlife photographer showed Arctic imagery and described Angelbird media used with a Sony Alpha. Reference PDF reports card visible in the third photo; comments discuss the photographs rather than card performance.

Impact: Real-world creator use and potential opportunity for relationship building.

Suggested response: Optional: reach out to the photographer.

Date evidence: Reference report attributes discovery to 28 October 2026

Verification: Comments and dated metrics transcribed from supplied 29 October report. All three comments concern photos, not card performance. Original source may require authentication.

Public source metrics: page_followers: 17K, page_likes: 1.1K, post_views: 575, post_likes: 127, shares: 3, comments: 3

Source excerpt: Angelbird AV PRO CF- CFast 2.0 | 1 TB

Finding: A 30 October 2026 shopping roundup includes the Angelbird AV PRO CF CFast 2.0 1TB among a longer ranked set of memory cards. This is an affiliate-style product list, not independent lab testing or direct customer feedback.

Details: Source editorial date verified as 2026-10-30; third-party product reference photo separately credited. No independent creator test, source comments or traffic numbers were established.

Impact: Additional public search discoverability of Angelbird's CFast product; editorial quality is limited.

Suggested response: No response required. Monitor for independent reviews.

Date evidence: Original Yajmin page explicitly attributes the CFast roundup to Yajmin Editor on 2026-10-30.

Verification: Article date and Angelbird product inclusion checked against public original webpage search result. Ranking claims were not independently tested.

WEEKLY COVERAGE AND VERIFICATION NOTES

This is a one-time manual weekly compilation. The 7-day window is not a claim that seven daily scans were completed. Missing metrics are unavailable, not zero. The saved evidence may contain inaccessible Instagram Stories or other platforms; URLs alone are never proof of content, media or publication date.

No weekly schedule, cron trigger, research API call or modifications to daily reports are introduced.
